# HOW TO ENTER A CODE INTO THE APP "APTURI COVID" ?

Within a day after an interview with the SPKC you will recieve an SMS with a code

< SPKC 🗑

Apturi Covid kods:
02471496

We ask you to enter the code in the Settings section of the app **within 30 minutes** after receiving the code

Notify me if contact detection gets switched off ●

v 1.1 (56)

🏠 Home   📊 Statistics   ❓ Information   ⚙️ Settings

Settings   LV EN RU

If you get a code from SPKC, enter it here:

2.

Enter SPKC code

Notify detected contacts

If you are infected, here's where you can enter a code from SPKC and automatically notify detected contacts at risk to be infected – from loved ones to complete strangers, in Latvia and in Europe. The notification will not disclose any information about you. Code is valid for 30 minutes.

List of countries >

3.

Enter code:

When the code has been entered, press "**Send**"

4.

Send

If you have been tested positive for COVID-19 and have been interviewed by an SPKC epidemiologist, but have not received a code from the SPKC within a day, then write an e-mail to:
google@spkc.gov.lv

THANK YOU!
